

Microsoft 365 Copilot Readiness Package

► Microsoft 365 Copilot: Your Ultimate Productivity Assistant

Microsoft 365 Copilot is an AI-powered tool that seamlessly integrates into your familiar Microsoft 365 applications such as Word, Teams, Outlook, PowerPoint, and Excel. It leverages powerful Large Language Models (LLMs) and combines them with data from Microsoft Graph and Microsoft 365 apps. The goal of Microsoft 365 Copilot is to support you in your daily work—whether by automating tasks or helping you be more creative and productive. This allows you to work more efficiently and further develop your personal skills.
